

Thank you message of the Editorial Office

Electronic Journal of General Medicine is a multidisciplinary peer-reviewed medical journal celebrating its 14 years in publication. It is thanks to the tireless efforts of many researchers that the journal is currently indexed by Web of Science and SCOPUS. We would like to express our appreciation to all editorial board members, reviewers and authors along the way. Of course, special thanks should be presented to our past editor-in-chiefs.

First of all, we are indebted to **Dr. Reha Erkoç**, our founding editor-in-chief, for the tremendous efforts that he has given all these years. Dr. Erkoç has served as editor-in-chief from 2004 to 2008. We also wish to acknowledge the contributions made by **Dr. Kürşat Uzun**. Dr. Uzun has served as associate editor from the earliest years of the journal and served as editor-in-chief from 2009 to 2014. We would like to express gratitude to **Dr. Hilmi Cevdet Altınyazar** who has served as editor-in-chief from 2015 to 2017. The success of the journal is a testimony to their success and dedication.

As the journal attained a high level of expertise, we started to meet the standards set out by International Committee of Medical Journal Editors. We would like to thank our current members of the editorial board, and specifically **Dr. Abdzhappar Gaipov, Dr. Ahmed El-nawawy, Dr. Alexei Wong, Dr. Fu-Chen Kuo, Dr. Marcos Roberto Tovani-Palone, Dr. Ruben Blachman-Braun, and Mr. Tim Heider** for leading our way.

Finally, we express our heartfelt thanks to everyone who lent us their expertise as an associate editor, guest editor, peer reviewer and author. We wish your continuous support and look forward to celebrating new years to come. Thanks for being part of this vibrant community.

We encourage you to continue sending us your feedback, ideas, and original works to further improve the quality and impact of the journal.
